

# A2 CLEANING CADDY \_\_\_\_\_

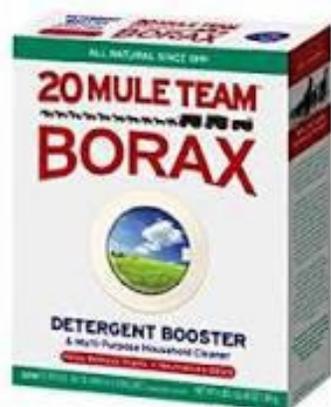

We Start with our Signature Bucket filled with Hot H<sub>2</sub>O & a Dash of Sal Suds, and Skewers, Sponges, Dobies, and Toothbrushes.

In your Caddy you will find the Products Listed, Labeled with your name, and the dilution rate. The dilution rate is for our crew, & also the number the CDC needs in case of emergency.

Please feel free to use your caddy anytime! these are excellent products, and customized for your home!

At the end of 2016 we implemented a new filling process that allowed us the opportunity to leave the caddies ALWAYS remaining in your home...the introduction of the fill bag. Each team now carries fills of the products that were heatsealed at the office, this allows for a streamlined caddy filling process that is sanitary and safe for your family! You should expect your caddy to always be clean, and void of any debris!

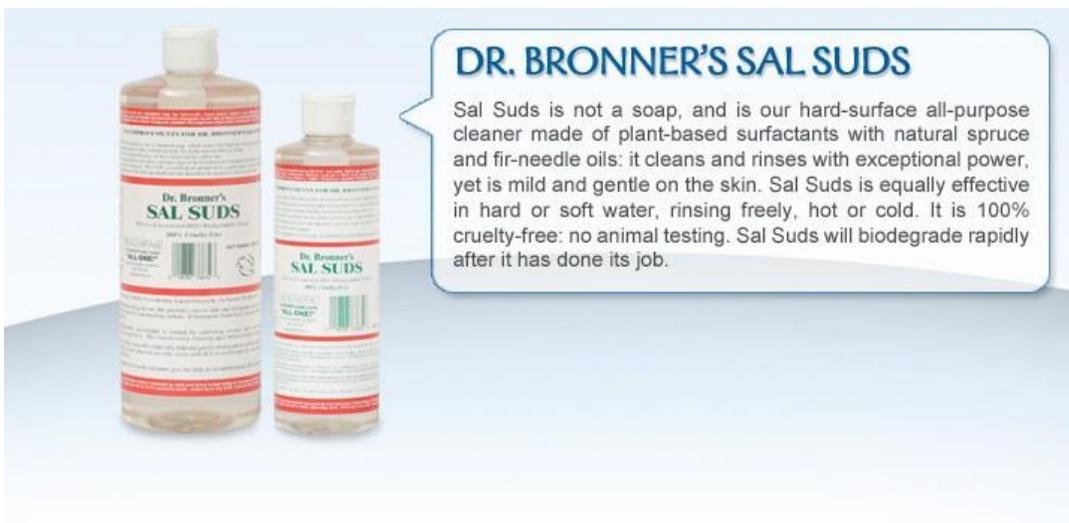

*Bar Keepers Friend is a superior cleaner that removes rust stains, baked food, discoloration stains, and scuff marks from a variety of surfaces. Homeowners, hobbyists, musicians and professional kitchen staff (included bar keepers) have been using Bar Keepers Friend for more than a century to keep surfaces gleaming, its the main ingredient in our crystals*

## BATHROOM NABC

Mild, non-acid, bathroom disinfectant for everyday use. Cleans, disinfects, deodorizes toilet bowls, urinals and other restroom surfaces. Effective against the AIDS, Hepatitis B Viruses and HCV (Hepatitis C Virus). Unique floral, fresh scent. Formulated without acid, NABC is non-caustic and non-abrasive. Safe to use on nearly any hard surface-NABC will not etch porcelain, or pit fixtures-will not harm plumbing or septic tanks when used according to directions. Even accidental spills will not result in ruined clothing or carpeting. Effective against the antibiotic resistant bacteria: Methicillin resistant Staphylococcus aureus (MRSA) and Vancomycin resistant Enterococcus faecalis

**DR. BRONNER'S SAL SUDS**

Sal Suds is not a soap, and is our hard-surface all-purpose cleaner made of plant-based surfactants with natural spruce and fir-needle oils: it cleans and rinses with exceptional power, yet is mild and gentle on the skin. Sal Suds is equally effective in hard or soft water, rinsing freely, hot or cold. It is 100% cruelty-free: no animal testing. Sal Suds will biodegrade rapidly after it has done its job.

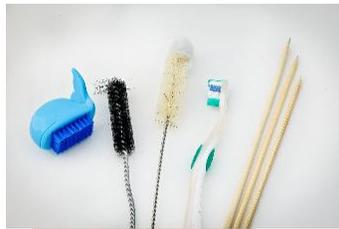

*A clean, beautiful home invites family and friends to come together. But when your cleaning leaves a strong, chemical scent, others might not want to gather. Create a welcoming home that's safe for everyone with the fresh and inviting scent of Thieves® Household Cleaner.*

*Formulated with the power of Young Living's Thieves oil blend, you can get a deep clean without dangerous or synthetic ingredients. Thieves cleaner also includes the scent of Lemon essential oil for an even more uplifting aroma. Chores will feel like less of a chore with the sweet-and-spicy scent and effective cleaning power of Thieves Household Cleaner. This all-purpose cleaner can be used on any surface in your home for dusting, spot cleaning, scrubbing, or any other cleaning need. Wherever you use it, you'll feel good knowing it's safe to use around everyone in your family, including pets.*

## *Thieves*

## Arsenal

our tools are incredibly important to us, from scrub brushes, magic erasers, tooth brushes, skewers, to walnut or white/green/blue back sponges each having a special duty!

## Citrasolv

A great multi-purpose cleaner that can handle almost any household task (even tough on grease), and is ideally suited for stainless steel, wood, porcelain, aluminum and other surfaces. Yummy in fresh Valencia Orange, A2 uses in the kitchen.

## *MeanGreen*

*Simple Green All Purpose Cleaner handles tough spills and stains on everything from countertops to carpets, allowing you to reach for one trusted product no matter the mess. The non-toxic and biodegradable formula is safer for use around your family and pets, so you don't have to worry about harsh or dangerous chemicals in your home. A2 loves this product on tiles, and for scrubbing!*

**BioRenewable  
Glass Cleaner:**

**VINEGAR** *Cleaning products fall into one of two categories: toxic or expensive. While both types will clean almost anything (or at least, anything within their limited range of capabilities), there's a third option. It's inexpensive and not at all*

BioRenewables® are made with ingredients that are derived from domestic agricultural and forestry materials. Whether it's soy-based solvent, vegetable-derived detergent, or cleaning agent made from coconut oil, each ingredient comes from a renewable resource. This means that the raw components Spartan is using are constantly being grown, produced, and manufactured into solvents, detergents, etc. These renewable items provide products that are environmentally safer, increase rural economic development, foster domestic production of our resources, and reduce dependency on imported products.

*poisonous to humans. It's multi-purpose as well--one container will take care of laundry, kitchen cleaning, even bugs and weeds. This "miracle cleaner" is vinegar. One of my personal favorites! Vinegar is a weak form of acetic acid that forms through the fermentation of sugars or starches. It is completely edible, and cannot harm your stomach. And luckily for us, many things can be cleaned using it. Although the smell may turn you off a bit, now with adding some essential oils or Orange rinds-voila-its perfect! The uses of vinegar are nearly endless. In addition to cleaning, it is an excellent natural antibacterial and can be used for home science experiments (remember the vinegar-and-baking soda volcanoes from grade school?). The health benefits are many as well.*

**Borax/Arm & Hammer Washing Soda Crystals:** A mixture designed by Kristiann and in your Caddy named "Crystals" Excellent for whitening or deodorizing, porcelain sinks, abrasive on toilets, tubs, or scum on tiles, in bucket water to change PH of solution & \*Some materials can be used as a sit and work paste. **CANNOT (Like magic eraser) be used on STAINLESS or Granite)**
